MEMORANDUM FOR: The Honorable Zbigniew Brzezinski
Assistant to the President for
National Security Affairs

SUBJECT: CIA Study on KGB Behavior

1. Attached is a study we've done on the connection between the KGB's recent indications of aggressiveness and the Politburo's attitude towards the Carter Administration. I thought you would enjoy glancing at this in view of your interest in interpretation of foreign attitudes towards the Administration.

2. The report did not specifically discuss two incidents of KGB aggressiveness. You would be interested in knowing, however, that I have one high-level internal study group going over all the material concerning those two instances. Their work should be done in early December. I've waited until recently to get this thorough review under way because more fragments of information as to what happened have been coming in. I am also organizing an external review group which will pick up when the internal group completes its review.
